## PROFESSIONAL SUMMARY

Motivated and detail-oriented entry-level Cybersecurity professional with hands-on experience in penetration testing fundamentals, web application security, and network traffic analysis. Currently pursuing an Advanced Diploma in Information Security (ADIS) at Offenso Academy. Proficient in industry-standard tools including Burp Suite, Nmap, Metasploit, and Wireshark. Passionate about identifying vulnerabilities, analyzing threats, and contributing to a stronger security posture in a professional environment.

## EDUCATION

<b>Advanced Diploma in CyberSecurity (ADIS)</b> Offenso Academy, Calicut, Kerala	2025 – Present
<b>Higher Secondary Education – (Commerce)</b> Higher Secondary School, Kalpakanchery, Kerala	2023 – 2025

## SKILLS

Networking Privilege Escalation	Web Application Security	SQL Injection	Enumeration
------------------------------------	--------------------------	---------------	-------------

## TOOLS

Nmap WPScan Ffuf	Burp Suite Gobuster Hydra	Metasploit Nikto Docker	Wireshark SQLmap
------------------------	---------------------------------	-------------------------------	---------------------

## PROJECTS

### PhishGuard AI — AI-Powered Phishing Detection Tool

- Built an AI-based phishing detection tool using ML + heuristic analysis
- Detected threats across URLs, emails, and HTML (spoofing, typosquatting, scripts)
- Developed Flask API + dashboard + CLI with real-time risk scoring

### ReconX — Multi-Threaded Reconnaissance Tool

- Developed a Python-based recon tool for subdomain discovery and live host detection
- Identified sensitive files and leaked secrets (API keys, tokens, credentials)
- Implemented multi-threaded scanning with structured reporting (JSON/TXT)
